

The FGM center of excellence based in Mauritania developed a set of indicators to be shared with member associations (MAs), based in countries where FGM is still a common social and cultural practice. Those indicators will serve MAs to build their national intervention strategies and decisions based on relevant data and research evidences. Besides, they will contribute to IPPF strategic framework impact delivery. Those indicators are the fruit of consultative meetings with MAs, service providers, activists, and experts.

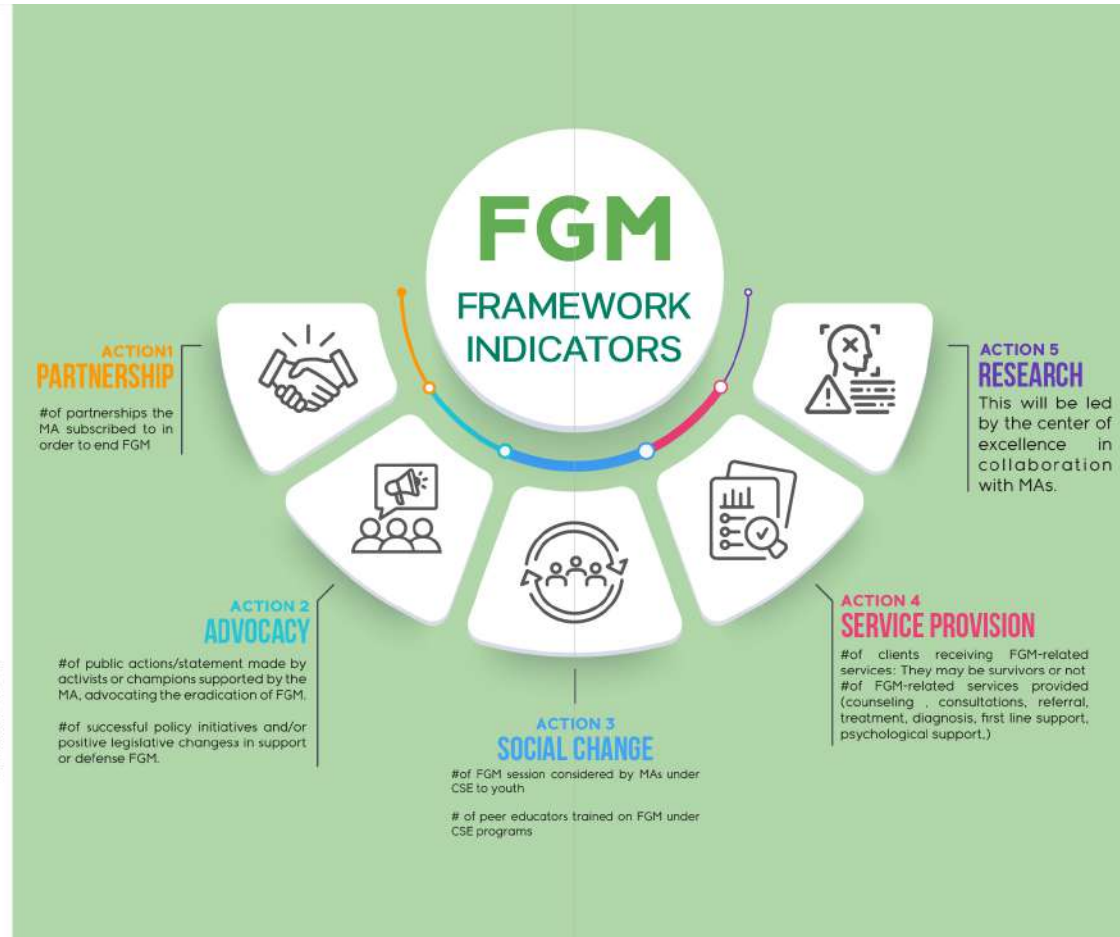

These indicators aim to support the framework to accelerate the elimination of FGM in the following regions:

- **Africa region:**
  - Chad
  - Mali
  - Senegal
  - Ivory coast
  - Ghana
  - Niger
  - Togo
  - Benin
  - Burkina Faso
  - Somalia
  - Eritria
  - Tanzania
  - Ethiopia
  - Gambia
  - Nigeria
  - Kenya
- **Arab world region:**
  - Mauritania
  - Sudan
  - Egypt
  - Djibouti
  - Somaliland
  - Iraq
  - Yemen
  - Pakistan
- **East & South East Asia & Oceania regions:**
  - Indonesia
  - Malaysia
  - Maldives
  - Thailand
  - Philippines
  - India
  - Sirilanka
  - Colombia

# FGM INDICATORS

## #OF PARTNERSHIPS THE MA SUBSCRIBED TO IN ORDER TO END FGM

**Definition:** this indicator measures the number of partnerships and coalitions the MA belongs to. This indicator helps IPPF to measure recognition of the MA in the field by other partners working under the same issue. This indicator is helpful while advocating, writing proposals and shows how IPPF is globally networked to FGM stakeholders. (Indicator of process)

**Example:** in 2024, the Sudanese MA partnered with two movement to end FGM. Their role was to bring scientific evidence that FGM harms women.

**Internal Records** (#of initiatives where MA is a lead partner)  
**Collaborative Networks** (#initiatives within the membership/coalitions)  
**Type:** Quantitative/Qualitative.  
**Frequency:** Annual  
**Scope:** MAs/Partners.  
**Source:** MOU, clusters, meetings commitment

PARTNERSHIP

## #OF PUBLIC ACTIONS/STATEMENT MADE BY ACTIVISTS OR CHAMPIONS SUPPORTED BY THE MA, ADVOCATING THE ERADICATION OF FGM.

**Definition:** this indicator counts the number of public statements issued by activists or champions endorsed by the MA, this indicator captures how strong the MA through media channels and social network in making its own statement. (Indicator of process)

**Example:** The MA of Chad made a strong oral declaration on FGM at UN, that the Chad government is willing to consider as part of its SRH strategy.

**Internal Records** (#of public statements made to media thanks to the MA)  
**Collaborative Networks** (#initiatives within the membership/coalitions)  
**Type:** Quantitative/Qualitative.  
**Frequency:** Annual  
**Scope:** MAs/Partners.  
**Source:** Videos, posters, social media

ADVOCACY 01

## #OF SUCCESSFUL POLICY INITIATIVES AND/OR POSITIVE LEGISLATIVE CHANGES TO ERADICATE FGM.

**Definition:** This indicator quantifies the number of successful policy initiatives and positive legislative changes that demonstrate MA support for efforts to combat FGM. It may be considered as an impact of previous indicators (indicator of outcome)

**Example:** Mauritania came with a law to radicalize FGM thanks the MA partnerships and social media campaign initiated by the MA.

**Government Reports and Legislation,**  
**Reliable Online Databases and Repositories**  
**Type:** Aggregate.  
**Frequency:** Annual  
**Scope:** MAs/CPs  
**Source:** CMIS

ADVOCACY 02

## #OF CLIENTS RECEIVING FGM-RELATED SERVICES; THEY MAY BE SURVIVORS OR NOT

**Definition:** The number of clients falls into two categories:  
 1.Survivors: These individuals have been identified as victims of FGM. They may seek consultations independently or be brought in by their relatives.  
 2.Non-survivors: These clients have not experienced FGM. They visit MA for counseling, advice.

**Example:** The Indonesian MA provided FGM services to 400 persons ( 20% of them are survivors) (indicator of outcome) **N.B:** please note that the first two indicators may contribute to this indicator also.

**CMIS** **Type:** Aggregate.  
**Frequency:** Annual  
**Scope:** MAs/Partners.  
**Source:** CMIS

SERVICES 01

## #OF FGM-RELATED SERVICES PROVIDED (COUNSELING, CONSULTATIONS, REFERRAL, TREATMENT, DIAGNOSIS, FIRST LINE SUPPORT, PSYCHOLOGICAL SUPPORT.)
